Figure 1: Kermit is back

Figure 2: Cat punch

Let's refer to the images with [1](#), [2](#)

$$\int 2$$

$x^2$  this is some text

Let's write a footnote<sup>1</sup> now we're back to the main text

*Proof of the Main Theorem.*

$$G(t) = L\gamma!t^{-\gamma} + t^{-\delta}\eta(t)$$

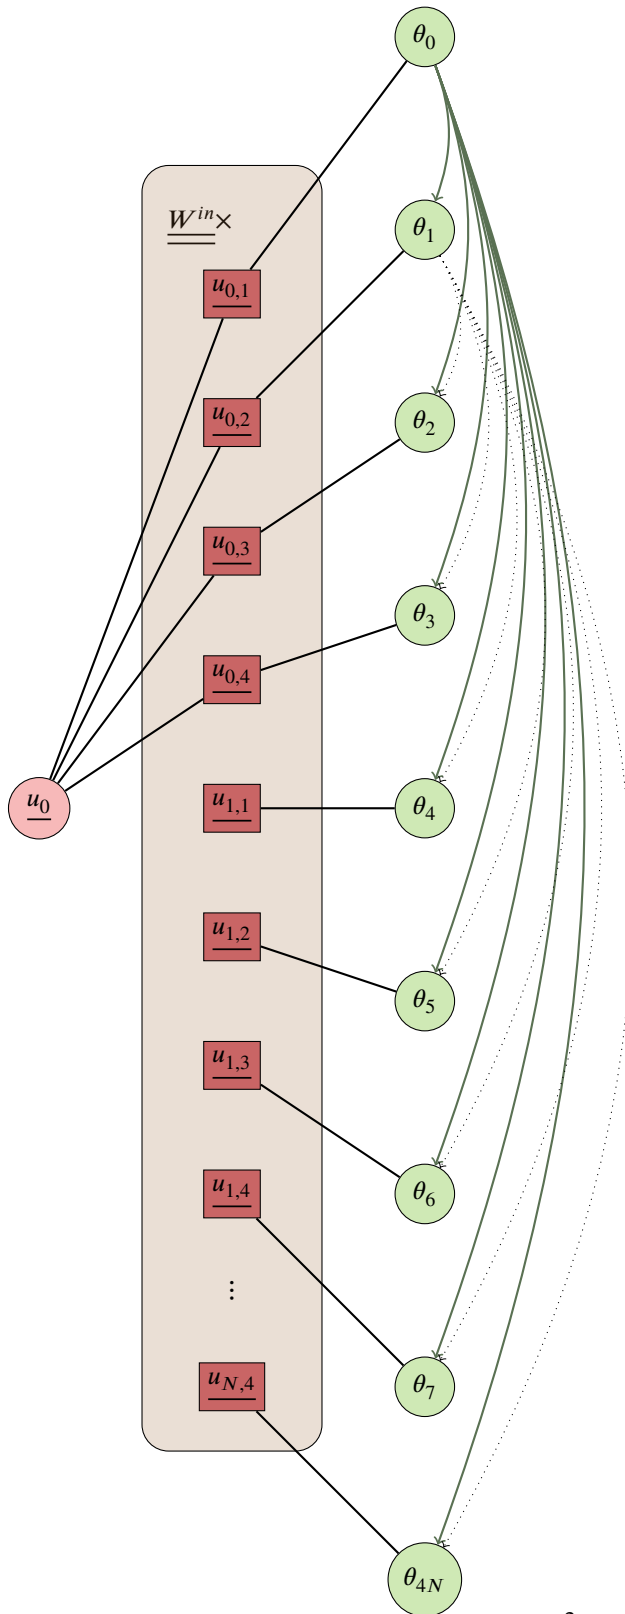

□

---

<sup>1</sup>Here is our footnote. It looks funny to be honest

# Multiplexing network

with multiplex  $m = 4$

# Echo State Network
